**VERDICT: TRUE NEWS**

## Query News Sample

"India signs Rs 13,500 crore deal for advanced indigenous Su-30MKI jets"

## Top Visual Evidence

"India Orders 12 Locally-Built Su-30MKI Jets for \$1.5 Billion"

# Fake News Analysis Report

Query ID: 99

## Final Unified Reasoning

- Detailed Reasoning:

The evidence strongly suggests the news post is real. Here's a breakdown of the reasoning, prioritizing the evidence as instructed:

- FOR REAL:

- **Strong Web-Based Claim Verification (Evidence 3):** The web search provides a "High Support" score of 20.0, indicating a strong factual basis for the claim that India signed a deal for advanced Su-30MKI jets. This is the most significant piece of evidence.

- **Image-Image Consistency (Evidence 2):** The comparison of the query image with a retrieved image reveals consistent sentiment, entities (both being Su-30MKI fighter jets), and actions (both depicting the aircraft in flight). This reinforces the visual authenticity of the image and its relevance to the claim.

- **Image-Text Alignment (Evidence 1):** While there's a mismatch in the specific event depicted (image shows the jet, text describes a deal), the entities (India and Su-30MKI) align perfectly. The sentiment is also broadly consistent – the image of a powerful fighter jet supports the positive sentiment of a defense deal.

- AGAINST REAL:

- **Event/Action Mismatch (Evidence 1):** The primary counterargument is the lack of a direct visual representation of the deal signing in the image. The image shows the aircraft, but not the contractual agreement itself. However, this is a common practice in news reporting – using a representative image of the subject matter rather than the specific event.

- **Confidence Level: High.** The strong support from the web search (Evidence 3) is the decisive factor, and the other two pieces of evidence provide further corroboration. The minor event mismatch is a typical limitation of image-based news reporting and doesn't undermine the overall veracity of the post.

## Image vs. Text Analysis (Query)

Okay, let's break down this image and text pairing step-by-step.

### STEP 1: Sentiment Alignment

**1. Text Sentiment:** The text conveys a positive sentiment. It describes a significant deal ("advanced," "Rs 13,500 crore") for indigenous military equipment, suggesting progress and strength.

**2. Image Sentiment:** The image depicts a fighter jet in flight. While it's a powerful image, it's relatively neutral in tone. It doesn't convey strong positive or negative emotions on its own. It's a depiction of a military asset.

**3. Comparison:**

- Classification: Sentiment Aligned
- Reasoning: While the image itself is neutral, the subject matter (a military jet) aligns with the positive sentiment of progress and strength implied by the text about a significant defense deal.

### STEP 2: Entity Consistency

**1. Text Entities:**

- India
- Su-30MKI

**2. Image Entities:**

- The image clearly shows a Su-30MKI fighter jet. The Indian flag is visible on the tail fin, indicating it belongs to the Indian Air Force.

**3. Comparison:**

- Classification: Entities Aligned
- Reasoning: Both India and the Su-30MKI are explicitly mentioned in the text and are visually represented in the image.

### STEP 3: Event/Action Consistency

**1. Text Event/Action:** The main event is the signing of a deal for the procurement of advanced fighter jets.

**2. Image Depiction:** The image depicts a Su-30MKI fighter jet in flight. This represents the type of aircraft involved in the deal, but not the act of signing a contract.

**3. Comparison:**

- Classification: Event/Action Mismatch
- Reasoning: The text describes a contractual agreement, while the image shows an aircraft in operation.

Query ID: 99

---

They are related but don't depict the same event.

---

## STEP 4: Final Judgment

- Judgment: TRUE
- Brief Reasoning: While there's an Event/Action Mismatch (the image doesn't show the signing of the deal), the Sentiment and Entity alignment are strong. The image accurately depicts the type of aircraft mentioned in the text and the overall sentiment of a positive development for India's defense capabilities is consistent. The image serves as a visual representation of the subject matter of the article, making the pairing truthful, even if it doesn't illustrate the specific event described.

## Query Image vs. Evidence Image Analysis

Okay, let's analyze the two images step-by-step.

- STEP 1: Sentiment Alignment
  - **Image 1 Sentiment:** Neutral. The image depicts a military aircraft in flight, which is a factual representation without inherent emotional content.
  - **Image 2 Sentiment:** Neutral. Similar to Image 1, it shows an aircraft in flight, presenting a neutral scene.
  - **Comparison:** Sentiment Aligned
  - **Reasoning:** Both images present a neutral depiction of an aircraft in flight, lacking any strong emotional cues.
  - Output 1:
    - Classification: Sentiment Aligned
    - Reasoning: Both images are neutral in sentiment.

- STEP 2: Entity Consistency
  - **Entities in Image 1:** The primary entity is a Sukhoi Su-30MKI fighter jet, identifiable by its design and markings (Indian Air Force insignia).
  - **Entities in Image 2:** The primary entity is also a fighter jet, visually resembling a Sukhoi Su-30 series aircraft.
  - **Comparison:** Entities Aligned
  - **Reasoning:** Both images feature a fighter jet of the same type (Sukhoi Su-30 series).
  - Output 2:
    - Classification: Entities Aligned
    - Reasoning: Both images depict the same type of aircraft.

- STEP 3: Event/Action Consistency
  - **Event/Action in Image 1:** The image shows a Sukhoi Su-30MKI fighter jet in flight, likely during a training exercise or operational mission. The aircraft is in a turning maneuver.
  - **Event/Action in Image 2:** The image shows a fighter jet in flight, similar to Image 1.
  - **Comparison:** Event/Action Aligned
  - **Reasoning:** Both images depict the same action: a fighter jet in flight.
  - Output 3:
    - Classification: Event/Action Aligned
    - Reasoning: Both images show a fighter jet in flight.

- STEP 4: Final Judgment
  - **Judgment:** TRUE
  - **Brief Reasoning:** All three analyses (Sentiment, Entities, and Event/Action) indicate alignment

---

between the two images. The images consistently depict the same type of aircraft performing the same action, suggesting they are likely related and not manipulated to create a misleading narrative.

Query ID: 99

## Text vs. Text Factual Consistency Analysis

### Evidence Snippet #1

**Factual Score:** 1

**Rationale:** Both sentences describe the same event: India procuring Su-30MKI jets. Sentence A states a deal worth Rs 13,500 crore, while Sentence B states an order of 12 jets for \$1.5 billion. Converting \$1.5 billion to Indian Rupees (approximately) yields around Rs 125 billion, which is close to Rs 13,500 crore. The core factual information - India acquiring Su-30MKI jets - is consistent across both sentences.

### Evidence Snippet #2

**Factual Score:** 0

**Rationale:** Sentence A states a deal for Su-30MKI jets worth Rs 13,500 crore. Sentence B states a deal for engines for Su-30MKI jets worth Rs 26,000 crore. While both relate to Su-30MKI jets, they describe different deals with different values and components. Therefore, they do not describe the same real-world situation.

### Evidence Snippet #3

**Factual Score:** 1

**Rationale:** Both sentences describe the same event: India signing a deal worth Rs 13,500 crore for Su-30MKI jets. Sentence B specifies that these are 12 jets with high 'Indigenous Content' from HAL, which is consistent with the claim in Sentence A.

### Evidence Snippet #4

**Factual Score:** 0

**Rationale:** Sentence A describes a deal for new Su-30MKI jets, while Sentence B describes an order for new engines for existing Su-30MKI fighters. These are related but distinct events; one is about acquiring aircraft, the other about maintaining/upgrading existing ones. They do not describe the same real-world situation.

Query ID: 99

## Text vs. Text Analysis (cont.)

### Evidence Snippet #5

**Factual Score:** 1

**Rationale:** Both sentences state the same fact: India's Defence Ministry signed a deal worth Rs 13,500 crore with HAL for 12 indigenous Su-30MKI jets. The provided link from indianmasterminds.com supports this claim.

### Evidence Snippet #6

**Factual Score:** 1

**Rationale:** Both sentences describe the same event: the Indian Ministry of Defence signing a deal worth ₹13,500 crore with Hindustan Aeronautics Limited (HAL) for Su-30MKI jets. The entities, amount, and subject matter are identical.

### Evidence Snippet #7

**Factual Score:** 1

**Rationale:** Both sentences describe the same event: the Indian government signing a deal worth Rs 13,500 crore. Sentence A mentions 'Su-30MKI jets' and Sentence B mentions '12 Sukhoi fighter jets with HAL'. Sukhoi Su-30MKI are the same type of aircraft, and HAL (Hindustan Aeronautics Limited) is the manufacturer. The deal amount and the context of boosting self-reliance are also consistent.

### Evidence Snippet #8

**Factual Score:** 0

**Rationale:** Sentence A describes a deal for the purchase of Su-30MKI jets. Sentence B describes an event where India shot down Pakistan fighter jets. These are distinct events and do not share the same factual content.

# Fake News Analysis Report

Query ID: 99

## Text vs. Text Analysis (cont.)

### Evidence Snippet #9

**Factual Score:** 1

**Rationale:** Both sentences describe the same real-world event: India signing a deal worth Rs 13,500 crore for advanced Sukhoi jets. Sentence A specifies these are indigenous Su-30MKI jets, and Sentence B confirms the Hindustan Aeronautics Limited (HAL) will supply 12 advanced Sukhoi jets to the Indian Air Force for the same amount. The entities (India, HAL, Indian Air Force, Sukhoi jets), action (signing a deal/supply), and context (advanced jets, amount) are identical.

### Evidence Snippet #10

**Factual Score:** 1

**Rationale:** Both sentences describe the same event: the Indian Ministry of Defence signing a deal worth ₹13,500 crore with HAL for Su-30 fighter jets. The entities (Defence ministry, HAL, Su-30), the action (signing a deal), and the amount (₹13,500 crore) are identical in both sentences.
