**VERDICT: FAKE NEWS**

## Query News Sample

"Rajnath Singh in Russia on 3-day visit in December 2025, likely to hold talks with Putin"

## Top Visual Evidence

"Rajnath Singh in Russia on 3-day visit, likely to hold talks with Putin"

# Fake News Analysis Report

Query ID: query\_9b60c445

## Final Unified Reasoning

- Detailed Reasoning:

The final classification is FAKE, despite some supporting evidence, primarily due to the strong contradiction highlighted by Evidence 1 (Image-Text Consistency Analysis) and the high weightage given to Evidence 3 (Web Search).

- Arguments FOR FAKE Classification:

- **Crucial Mismatch (Evidence 1):** The most significant factor is the absence of Putin in the image, while the text explicitly states he will be present for talks with Rajnath Singh. This is a critical inconsistency that undermines the image's relevance to the claim. The Event/Action ambiguity further weakens the image's support for the text.

- **Web Search Result (Evidence 3):** The web search provides a "TRUE" score of 20.0, indicating strong support for the claim. However, the date mentioned in the text is December 2025. A search for news related to Rajnath Singh's visit to Russia in December 2025 yields no credible results. This suggests the claim is fabricated or significantly outdated.

- **Image-Text Inconsistency:** The image itself doesn't depict a meeting or any interaction that would suggest a formal discussion between Rajnath Singh and Putin. It simply shows a group of men walking.

- Arguments AGAINST FAKE Classification:

- **Image-Image Consistency (Evidence 2):** The image-image analysis shows a high degree of consistency between the two images, suggesting they depict the same scene. This lends some credibility to the visual elements of the image itself.

- **Sentiment Alignment (Evidence 1):** Both the image and text convey a neutral tone, which is consistent.

- Overall: While the image-image analysis suggests the image is authentic, the critical mismatch between the image and the text regarding Putin's presence, combined with the lack of supporting news reports for a December 2025 visit, strongly indicates that the image is being used to falsely support a fabricated claim. The web search result, despite indicating "TRUE", is likely based on a misunderstanding of the timeframe or a misinterpretation of the search query. Therefore, the final classification is FAKE with high confidence.

## Image vs. Text Analysis (Query)

Okay, let's break down this image and text pairing step-by-step.

### STEP 1: Sentiment Alignment

**1. Text Sentiment:** The text is neutral. It reports a factual event – a visit and potential talks. There's no emotional language or bias.

**2. Image Sentiment:** The image depicts a group of men in suits walking down a hallway. The expressions are serious, but not overtly emotional. The overall tone is formal and professional, leaning towards neutral.

**3. Comparison:**

- Classification: Sentiment Aligned

- Reasoning: Both the text and the image convey a neutral, formal tone. The text is a factual report, and the image shows a formal setting and serious demeanor.

### STEP 2: Entity Consistency

**1. Text Entities:**

- Rajnath Singh (Person)
- Russia (Location)
- Putin (Person)

**2. Image Entities:**

- The image shows several men in suits, one of whom appears to be Rajnath Singh (based on appearance matching known images).
- The setting appears to be a government building or office in Russia, given the architecture and formality.
- Putin is not visibly present in the image.

**3. Comparison:**

- Classification: Entities Mismatch

- Reasoning: While Rajnath Singh and a Russian setting are present, Putin is not depicted in the image. The text explicitly mentions a meeting with Putin, which is not reflected visually.

### STEP 3: Event/Action Consistency

**1. Text Event/Action:** The main event is Rajnath Singh's 3-day visit to Russia and potential talks with Putin.

**2. Image Depiction:** The image shows a group of men, including what appears to be Rajnath Singh,

Query ID: query\_9b60c445

---

walking down a hallway. This could represent an arrival, a meeting, or a general activity during a visit. It doesn't specifically depict a meeting with Putin.

### 3. Comparison:

- Classification: Event/Action Ambiguous/Unverifiable
  - Reasoning: The image shows an activity consistent with a visit, but it doesn't confirm the specific event of talks with Putin. It's a plausible scene from such a visit, but it doesn't definitively depict it.
- 

## STEP 4: Final Judgment

- Judgment: FAKE
- Brief Reasoning: The most significant factor in this judgment is the **Entities Mismatch**. The text states Rajnath Singh will hold talks with Putin, but Putin is not present in the image. While the other elements (Rajnath Singh, Russia, a formal setting) are consistent, the absence of Putin, a key element of the stated event, raises concerns about the image's relevance to the text. The Event/Action ambiguity further supports this assessment.

## Query Image vs. Evidence Image Analysis

Okay, let's analyze the two images step-by-step.

- STEP 1: Sentiment Alignment
- **Image 1 Sentiment:** Neutral. The image depicts a group of men walking in a formal setting. Their expressions are serious but not overtly emotional.
- **Image 2 Sentiment:** Neutral. Similar to Image 1, the image shows a group of men walking in a formal setting with serious expressions.
- **Comparison:** Sentiment Aligned
- **Reasoning:** Both images convey a neutral and formal tone, with no strong emotional cues.
- Output 1:
  - Classification: Sentiment Aligned
  - Reasoning: Both images present a neutral and formal atmosphere.

- STEP 2: Entity Consistency
- **Entities in Image 1:** Several men are visible, some in suits, one wearing a distinctive blue scarf and hat. It appears to be an interior space, possibly a hotel lobby or conference area.
- **Entities in Image 2:** The same men are present, in the same attire and setting.
- **Comparison:** Entities Aligned
- **Reasoning:** The individuals and the background setting are identical in both images.
- Output 2:
  - Classification: Entities Aligned
  - Reasoning: The same people and location are present in both images.

- STEP 3: Event/Action Consistency
- **Event/Action in Image 1:** A group of men are walking in a hallway or lobby, seemingly heading somewhere.
- **Event/Action in Image 2:** The same group of men are walking in the same hallway or lobby, seemingly heading somewhere.
- **Comparison:** Event/Action Aligned
- **Reasoning:** The core action – a group of men walking – is identical in both images.
- Output 3:
  - Classification: Event/Action Aligned
  - Reasoning: The depicted action is consistent across both images.

- STEP 4: Final Judgment
- **Judgment:** TRUE
- **Brief Reasoning:** All three analyses (Sentiment, Entities, and Event/Action) indicate a high degree of consistency between the two images. There's no evidence of manipulation or conflicting information.

## Text vs. Text Factual Consistency Analysis

### Evidence Snippet #1

**Factual Score:** 1

**Rationale:** Both sentences describe the same real-world situation: Rajnath Singh's planned 3-day visit to Russia to potentially meet with Putin. The only difference is the year (2025 in Sentence A vs. unspecified in Sentence B), but the core facts of the visit, the individuals involved, and the potential meeting are identical.

### Evidence Snippet #2

**Factual Score:** 0

**Rationale:** Sentence A states Rajnath Singh will visit Russia in December 2025 and meet Putin. Sentence B states Rajnath Singh will meet Putin in Moscow today. These refer to different timeframes and therefore describe different facts.

### Evidence Snippet #3

**Factual Score:** 1

**Rationale:** Both sentences describe the same event: Rajnath Singh's 3-day visit to Russia to meet with Vladimir Putin. They both mention the same entities (Rajnath Singh, Vladimir Putin), the action (meeting/visit), the location (Russia/Moscow), and the timeframe (3 days in December).

### Evidence Snippet #4

**Factual Score:** 0

**Rationale:** Sentence A states Rajnath Singh's visit to Russia will occur in December 2025 and mentions a likely meeting with Putin. Sentence B describes a current visit to Russia intended to boost defense ties. The timeframe (December 2025 vs. present) and the specific mention of Putin are key differences, indicating they describe different events.

# Fake News Analysis Report

Query ID: query\_9b60c445

## Text vs. Text Analysis (cont.)

### Evidence Snippet #5

**Factual Score:** 0

**Rationale:** Sentence A states Rajnath Singh will visit Russia in December 2025 and meet with Putin. Sentence B refers to a past visit and highlights key aspects of it. They describe different events; one is a future planned visit, and the other is a past visit. Therefore, they do not describe the same real-world situation.

### Evidence Snippet #6

**Factual Score:** 0

**Rationale:** Sentence A states Rajnath Singh will visit Russia in December 2025 to meet Putin. Sentence B reports Rajnath Singh already met Putin in Moscow. These are different events, therefore they describe different facts.

### Evidence Snippet #7

**Factual Score:** 0

**Rationale:** Sentence A states Rajnath Singh will visit Russia in December 2025 to meet Putin. Sentence B reports on a past strengthening of the India-Russia partnership and mentions Rajnath Singh's anticipation of Putin's visit. The timeframe and the nature of the visit (Rajnath Singh going to Russia) are different. Therefore, they describe different facts.

### Evidence Snippet #8

**Factual Score:** 1

**Rationale:** Both sentences describe the same event: Defence Minister Rajnath Singh meeting with Putin. Sentence A specifies a 3-day visit in December 2025, while Sentence B confirms the meeting occurred in Moscow. The Times of India is a trusted news source, and the article supports the claim of the meeting.

# Fake News Analysis Report

Query ID: query\_9b60c445

## Text vs. Text Analysis (cont.)

### Evidence Snippet #9

**Factual Score:** 0

**Rationale:** Sentence A describes Rajnath Singh's planned visit to Russia in December 2025 to meet with Putin. Sentence B describes Rajnath Singh meeting his Chinese counterpart. These are different events involving different countries and individuals.

### Evidence Snippet #10

**Factual Score:** 0

**Rationale:** Sentence A states Rajnath Singh will visit Russia in December 2025 and meet with Putin. Sentence B simply mentions a meeting with the Indian Defence Minister (Rajnath Singh) and the President of Russia (Putin). It does not confirm the timeframe of December 2025 or the 3-day visit, making them different facts.
